### Features

- It is a platinum thermocouple with low degradation.
- We have an extensive lineup.

### Spec

- Element: Platinum resistance thermometer (Pt100) class B three-wire system
- Temperature range: 0 - 350°C
- Sheath size:  $\phi 1.6 \times 150\text{mm}$
- Coating material: Vinyl shield (VLS)
- Lead wire length: 2m
- Lead wire terminal part: Crimp terminal (4Y)
- Sheath material: Stainless steel (SUS316)
- Sheath type
- Model number: TPT-16150H

» Package size : 200×300×15 mm 70 g
