

# NON-WOVEN FABRICS

## ●Features

Univex is a sponge grinding material in which non-woven nylon fabric is attached to the grinding material with a special bond. The Univex sheets and discs are perfect to prepare surfaces before painting, or for sanding door interiors, roof gutters, front grilles, and other convex or concave surfaces that are difficult to deal with. The UC discs are suitable for removing old paint or sanding metal surfaces for finishing.

## Specification

Article	Minerals	Adhesive	Backing
Univex Sheets	AA,CC	R/R	66 Nylon Fabrics
Univex Discs	AA,CC	R/R	66 Nylon Fabrics
UC Discs (NUCD)	AA	R/R	66 Nylon Fabrics

Article	UNIVEX SHEETS	UNIVEX DISCS	UC DISCS (NUCD)
Size (m/m)	150×230	φ125,φ150	φ125
Grit	C,M,F,VF,SM, SF,UF	C,M,F,VF,SM, SF,UF	C,M
Package	10	20	10
Carton	100	200	100
